

The 'I Miss MathsJamJam' Competition

I want to hear your MathsJamJam karaoke!

Record yourself singing mathematical lyrics to a popular song. You can use lyrics you've written yourself, or something from the [MathsJamJam song book](#), or find lyrics from somewhere else.

Send a link to a video or audio file of your performance.

The winner will be chosen at random. I'd like to play the entries in a breakout room at some point during the gathering, if possible.

I will not show any files to anyone outside of the gathering and I will not keep any files after the end of the gathering.

The prize is mathematical lyrics written to a song of your choice. (There may be some delay in providing the prize, depending on your choice of song.)
